PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building responsive web applications using HTML, CSS, JavaScript and React. Experienced in developing frontend interfaces, integrating REST APIs, troubleshooting application issues and collaborating through Git and GitHub. Familiar with component-based development and responsive user interfaces. Currently expanding knowledge of Node.js, Express and MongoDB. Detail-oriented, adaptable and eager to contribute to a development team while growing into a well-rounded full-stack developer.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, JSX, React Hooks, component-based development

Styling & UX: Tailwind CSS, responsive web design, mobile-first development, cross-device layout testing, UI implementation

APIs & debugging: REST API integration, frontend-to-backend communication, Browser Developer Tools, JavaScript debugging, layout troubleshooting

Tools: Git, GitHub, Visual Studio Code

Currently developing: Node.js, Express.js, MongoDB, backend development concepts, database management

TECHNICAL PROJECTS

PayLab — Mock Digital Wallet Application

Team project

React · Tailwind CSS · REST APIs · Git and GitHub

- Collaborated with a mentor and another student to develop the frontend of a peer-to-peer digital wallet application.
- Developed interfaces for registration, login, wallet dashboard, money transfers and transaction history.
- Integrated frontend screens with REST API endpoints for authentication, wallet balance and transfers.
- Collaborated using Git and GitHub and worked on responsive mobile and desktop layouts.

To-Do List Application

Personal project

HTML · CSS · JavaScript · React

- Built a task management application to add, complete and delete tasks.
- Implemented browser localStorage to retain task data across page refreshes.
- Rebuilt the application with React, JSX, component-based development and the useState hook.
- Practised debugging and presented a walkthrough of the application and its implementation.

EDUCATION

Higher National Diploma (HND), Computer Science

2018 – 2021

Federal Polytechnic Ede · Ede, Osun State

Secondary School Education

2014

Omoladun Comprehensive College · Ibadan, Oyo State

ADDITIONAL INFORMATION

National Youth Service Corps (NYSC): Successfully completed in 2026.

Strong willingness to learn; good communication and teamwork skills; able to work independently and collaboratively. Detail-oriented, with an interest in debugging and problem-solving. Open to remote internship opportunities.
